B78 driving licence (automatic transmission)

TECHNICAL SKILLS

Advanced: MATLAB, Python, Abaqus, finite element methods (FEM), Computational Fluid Dynamics (CFD), LaTeX.
Working knowledge: C++, NASTRAN, Solid-Works.
AI tools (LLMs and agents, e.g., ChatGPT) in engineering workflows.
Microsoft Office, Google Workspace, macOS, Windows, Linux.

CORE STRENGTHS

Leadership • Management • Innovation • Creativity • Corporate Social Responsibility (CSR) • Project Management

LANGUAGES

French — Native
English — Fluent (TOEIC 2024: 920/990)
Spanish — Intermediate
Italian — Basic

INTERESTS

- Ultralight aircraft pilot
- Boxing — former Centrale Nantes club president and competitive boxer
- Football — former goalkeeper, Centrale Nantes second team
- Former figure-skating instructor

PROFILE

Centrale Nantes engineering student pursuing a dual degree in Aeronautical Engineering at Politecnico di Milano, with a focus on supersonic aerodynamics, structural dynamics, and aeroelasticity. Rigorous and self-directed, with initial industrial experience at Airbus Atlantic, I am seeking a technically focused final-year internship.

EDUCATION

- MSc in Aeronautical Engineering** 2025 — 2027
Politecnico di Milano
Compressible Aerodynamics, Computational Fluid Dynamics (CFD), Aeroelasticity, Mechanical Vibrations, Control Systems.
- General Engineering Degree – Aeronautics Track** 2023 — 2025
École Centrale de Nantes
- Selective Preparatory Programme – Physics and Engineering (PSI★)** 2021 — 2023
Lycée Clemenceau, Nantes
- French General Baccalaureate – Honours** 2021
Lycée La Perverie, Nantes
- Aeronautical Initiation Certificate (BIA) – High Honours** 2020

PROJECTS

- Ultralight Aircraft Electric Retrofit** 11/2024 — 02/2025
Specialization Project, Centrale Nantes
Aerodynamic analysis and propulsion optimisation; simulation, in-flight measurements, and validation.
- Communications & R&D Lead** 01/2024 — 06/2024
Student-Industry Project – Underdog
- Facilitated collaboration between the student team and the company.
 - Proposed automation solutions and designed industrial tooling.

PROFESSIONAL EXPERIENCE

- Second-Year Engineering Internship – Process Engineering** 03/2025 – 08/2025
ALTEN – Airbus Atlantic, Nantes
- Managed projects within the tooling project management team.
 - Redesigned job-specific training; developed and deployed an onboarding tool.
 - Managed an offshore project team in India.
- Structural Analysis Engineer** 11/2024 – 12/2024
Junior Enterprise Consulting Project – NG3
- Developed a Python solver for a structure’s geometry and anchoring loads.
- Assistant Flight Instructor** 2023 – 2025
Europilote, France
- Construction Labourer – Waterproofing** 06/2024 – 08/2024
SMAC – Blue-Collar Internship
